IN THE CLAIMS

1. (Previously Presented) A shower surround comprising:  
a base portion;  
a first wall portion;  
a second wall portion; and  
a corner portion engaged with said base portion, said first wall portion and said second wall portion, said corner portion comprising an interface for mounting a removable component to the corner portion.
2. (Cancelled)
3. (Previously Presented) The shower surround as recited in claim 1, wherein said removable component includes a shelf.
4. (Previously Presented) The shower surround as recited in claim 1, wherein said interface comprises a multiple of horizontal shelf slots.
5. (Previously Presented) The shower surround as recited in claim 4, wherein said multiple of horizontal shelf slots arranged vertically along a length of said corner portion.
6. (Previously Presented) The shower surround as recited in claim 4, wherein said multiple of horizontal shelf slots are segmented.
- 7.-8. (Cancelled)
9. (Previously Presented) The shower surround as recited in claim 1, further comprising a top trim engageable with said corner portion, said first wall portion and said second wall portion.

60,137-207; 136-3032-U

10. (Previously Presented) The shower surround as recited in claim 9, further comprising a shower head mounted to said top trim.

11. (Previously Presented) The shower surround as recited in claim 9, further comprising a water conduit which communicates water to said shower head, said water conduit located at least partially through said top trim.

12. (Cancelled)

13. (Currently Amended) The shower surround as recited in claim ~~12~~19, wherein said multiple of horizontal shelf slots are segmented.

14. (Currently Amended) The shower surround as recited in claim ~~12~~19, further comprising a shelf removable engaged with any of said multiple of horizontal shelf slots.

15. (Previously Presented) The shower surround as recited in claim 14, wherein interfaces between said slots and said removable shelves provide a "snap-in" interface

16. (Previously Presented) The shower surround as recited in claim 9, wherein said top trim comprises an annular frame.

17. (Previously Presented) The shower surround as recited in claim 16, wherein said annular frame defines an opening there through that is generally parallel to said base portion.

18. (Currently Amended) The shower surround as recited in claim ~~12~~19, wherein said horizontal shelf slots comprise blind openings that extend into said corner portion.

19. (Currently Amended) ~~The A~~ shower surround comprising as recited in claim 12

60,137-207; 136-3032-U

a base portion;

a first wall portion;

a second wall portion; and

a corner portion engaged with said base portion, said first wall portion and said second wall portion, said corner portion comprising a multiple of horizontal shelf slots arranged vertically along a length of said corner portion, wherein said horizontal shelf slots comprise at least partially arcuate openings in said corner portion.

20. (Previously Presented) A shower surround comprising:

a base portion;

a first modular wall portion;

a second modular wall portion;

a third modular wall portion engaged with said first modular wall portion and said second modular wall portion; and

a corner portion engaged with said base portion, said first modular wall portion and said second modular wall portion, said corner portion comprising a multiple of shelves.
